### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with M. Havluciyen on 25 January 2006.

The application has been amended as follows:

- a. claim 9, line 12, "of the riser" was replaced with --of the riser and releasably secures the inner ball by clamping the outer ball around the inner ball--;
- b. claim 20 was canceled.

The following is an examiner's statement of reasons for allowance: U.S. Patent No. 169,383 to Starr, U.S. Patent No. 470,668 to Fisher, U.S. Patent No. 490,541 to Case, U.S. Patent No. 5,035,464 to Spallholz, U.S. Patent No. 6,663,055-B2 to Boucher et al. teach rests having a riser and a housing with inner and outer balls mounted for universal movement relative to one another wherein the inner ball has a first securing arrangement and the outer ball has a second securing arrangement. However, the prior art alone or in combination fails to teach a first securing arrangement of the inner ball releasably secured to the riser via the outer ball clamping around the inner ball. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany
